I live in Millwood Wa. between the Union Pacific and Burlington Northern railroads. I've lived there for 33 years and have tolerated the noise and diesel smoke with out complaint. But I do not wish to have up to 60 more trains operating thru my Town and blocking the crossings thru out the Spokane Valley. I know there will be multiple accidents and Deaths if this is allowed to go forth. The over passes thru Spokane are aged and in need of repair. If a derailment was to occur in the middle of the city it would be detrimental

I don't think we should be exporting our coal to China so they can continue to pollute the air that comes back at us. As well as the fish and sea life we depend on.

There are ways of producing power (Wind power) and (Tidal wave power) that would also produce work for our people with out polluting our environment.

The Chinese could do the same.

"Wake up America, we only have one World lets protect it!!!"
